

KEEP IT FLOWING. KEEP IT CLEAN.

**PREVENT STORMWATER FLOODING
AND POLLUTING OUR BAYS BY:**

- Securing loose articles that may become airborne and cause damage or block pipes, ditches or inlets
- Remove debris, brush or obstructions from ditches, curbs and gutters
- Secure hazardous substances such as paint cans, gas/fuel containers, or oil/grease containers that might fill up and overflow
- Don't fertilize before a storm
