

North Beach Eco Park Planning Initiative

The northeast expanse of North Beach contains acres of wetland habitat, which plays an important role as a shorebird feeding ground and as a recreational amenity for area residents and visitors. The City of Corpus Christi, in partnership with the National Park Service and local institutions, is creating a park plan for the city-owned parcels in this area of North Beach, which total thirty acres.

The North Beach Eco Park Planning Initiative will develop an environmentally conscious plan for a park that will be home to healthy wetlands and wildlife, as well as trails, boardwalks, observation decks, interpretive signs and educational resources. Additional ideas for amenities and design will be gathered through an online survey and public meetings.

Project Timeline:

- | | |
|-------------------------------------|---|
| May 9, 2019:
6:00-8:00 PM | Community Visioning Workshop hosted at the Texas State Aquarium. |
| Summer/Fall 2019: | Community Design Workshop Location TBA |
| Late 2019: | Draft North Beach Eco Park Site Plan |

Thank you to our partner organizations:

GET INVOLVED & STAY INFORMED

YOUR OPINION MATTERS: Tell us what you want the North Beach Eco Park to look like.
Join us at the community visioning workshop and fill out the short online survey!
